Portuguese citizenship | Available for opportunities in Portugal and remote work

PROFESSIONAL SUMMARY

Junior Front-end / Full Stack Developer with experience building responsive web applications and digital products using React, Next.js, JavaScript, TypeScript, Node.js, Express.js, and PostgreSQL. Skilled in component-based architecture, REST APIs, JWT/Firebase authentication, and state management. Academic background in Information Systems and Graphic Design, combining software development, UX/UI, usability, and product thinking.

TECHNICAL SKILLS

Front-end: React, Next.js, JavaScript ES6+, TypeScript, HTML5, CSS3, Sass/SCSS, Tailwind CSS, React Router, Zustand, Redux, Context API, Vite, responsive design, and accessibility.

Back-end and data: Node.js, Express.js, REST APIs, JWT, PostgreSQL, MySQL, Supabase, Firebase Authentication, Firestore, and Storage.

Tools and practices: Git, GitHub, npm, Axios, Fetch API, Postman, Vercel, Figma, UX/UI, Clean Code, Scrum, and Kanban.

PROFESSIONAL EXPERIENCE

Innovation Agent | Rio de Janeiro Research Support Foundation (FAPERJ)

Rio de Janeiro, Brazil | Oct 2025 - Present

- Conduct technical and usability evaluations of MVPs, digital products, and SaaS applications in the technology ecosystem.
- Analyse UX/UI, navigation architecture, user experience, and technology fit, identifying improvements for digital products.
- Mentored and supported 14 startups; 11 advanced to the funding stage, representing a 78% approval rate.

Freelance Front-end Developer | Prime Language School

Remote | Nov 2024 - Mar 2025

- Developed and deployed a responsive landing page using React, JavaScript, HTML5, and CSS3.
- Created the visual identity, colour system, and user-centred interface, combining Front-end development with UX/UI.

Manager and Product Designer | Digital Print Design e Sublimação

Rio de Janeiro, Brazil | Sep 2019 - Sep 2024

- Managed design projects, created visual identities, and developed customised graphic materials for clients.
- Managed operations and worked directly with clients to gather requirements, validate prototypes, and deliver solutions.

SELECTED PROJECTS

ProntoAbrigo | React, TypeScript, Node.js, Express.js, PostgreSQL, Supabase

- Full Stack application for locating and managing emergency shelters, featuring JWT authentication, geolocation, distance calculation, Google Maps directions, capacity tracking, and supply management.
- Implemented 24-hour donation reservations, automatic inventory updates, and privacy rules for photographs.

Code: github.com/ffabbio615/pronto-abrigo-frontend

Portfolio 2.0 | React, TypeScript, Vite, Sass, Node.js, Express.js

- Interactive portfolio inspired by a desktop environment, with draggable windows, state management, local persistence, and a desktop-responsive interface.
- Integrated an AI assistant with a custom API using Gemini and Mistral to answer questions about the professional profile.

Code: github.com/ffabbio615/portfolio2.0

Prime Language School | React, JavaScript, Vite, Sass, HTML5, CSS3

- Responsive landing page for a language school, with clear navigation, an FAQ section, and a focus on performance and usability.
- Created the visual identity, colour palette, and interface experience, combining Front-end development with UX/UI.

Code: github.com/ffabbio615/primeLanguageSchool
